COLLECTIONS IN CHURCHES

Rev. E. T. Wellford Responds to Address of Welcome at Opening Session of Convention in Richmond and Arouses Great Enthusiasm.

Newport News has contributed more than \$800 this week to the treasury of the Anti-Saloon League of Virginia, now in annual session at Richmond. The money, which has been paid over to the treasurer of the league, was secured last Sunday by special collections in the local churches. Sunday was Field Day for the Anti-Saloon League, and four prominent visiting ministers representing the organization were here morning and evening to occupy Newport News pulpits. Collections for the league were taken in all of the churches at which the visitors preached, and in most of the others.

Rev. E. T. Wellford, pastor of the First Presbyterian church, responded to the address of welcome at the opening session of the league Tuesday evening. The address aroused great enthusiasm and the audience interrupted frequently with demonstrations of its approval.

Newport News is represented in the convention by Mr. Wellford and several other members of the league. The local public is very much interested in the proceedings of the convention, attention centering upon the report of the legislative committee.

DISCUSS NEW DEPOT
AT MEETING TONIGHT

Question of Establishing C. & O. Station in North End Will be Threshed Out.

A public meeting for the discussion of the matter of the erection of the Chesapeake & Ohio railway of a freight and passenger depot in North End will be held in Rosenbaum's hall at 8 o'clock tonight under the auspices of the Merchants' Association. The matter of the establishment of this depot came up several months ago and the Chesapeake & Ohio railway Company immediately went ahead with the arrangements for it, and it is said, that the site for the depot has been laid off. This week Frank Bragg, local agent of the Merchants & Miners Transportation Company, raised objection to the depot on the ground that his company would have to transfer its local freight to that depot and the arrangement would cause the company much inconvenience, expense and delay in delivering local freight. The matter was taken up with the Merchants' Association and the officers of that organization decided to have the public meeting to thresh the matter out.

AN ITCHING ERUPTION

"My baby boy was about nine months old when he had a breaking out on his neck which was very annoying. It used to make him very fretful and cross because it seemed to worry him so much. I had my doctor look at the baby and he told me it was eczema and he wanted to treat it. But a friend of mine told me she knew it could be cured cheaper and in much less time. So I started using the Cuticura Soap and Cuticura Ointment, which I soon found out was what I ought to have had before, for the eczema seemed to itch so the baby could not keep his head still and he was rubbing and twisting all the time. I used the Cuticura Remedies three times the first day and began to notice the good it was doing, for he began to get rest from rubbing his neck. So I used three cakes of Cuticura Soap and two boxes of Cuticura Ointment and now no one could tell that he ever had any kind of breaking out, and since then I have never been without Cuticura Soap nor Cuticura Ointment. Mrs. Lela Dwyer, 12 Browns Ct., S.W., Washington, D. C., Oct. 2, 1909."

In the report of the superintendent, Dr. Cannon said in part: "As the matter may not be presented in any other form, it is perhaps important to call attention to the vital question of national legislation."

On To Washington.

"It is now evident that the cry of the league must be 'On to Washington.' The nullification of the will of the people of the States by the permission of the national government is the stumbling block which must be removed before we can attain success."

"The right of the State to control their own local affairs must be insisted upon and secured by determined and persistent and never ending work at Washington."

"It is gratifying to state that it is likely that all of your senators and representatives in congress will vote for the desired legislation if the issue ever comes to a vote. But we should try to get our representatives to become agitators and aggressive workers for the passage of these measures."

"If our people will realize the fact that the success of our work is now dependent upon the action taken in Washington, they will begin at once to put forward every possible effort to see that their representatives in Washington represent them not only by vote, but by voice and personal effort. We cannot destroy the jug trade without such governmental collaboration."

MICHIGAN IN THE ROADS

New Semi-Dreadnaught Battleship Finishes First Voyage.

TO UNDERGO FINAL TESTS

Big Warship to Run Acceptance Trials off Atlantic Coast—Scout Cruisers Preparing for Tests of Fessenden Wireless System.

Completing her first voyage since she was placed in commission at the League Island navy yard, the new United States battleship Michigan, of the semi-dreadnaught type, has arrived in Hampton Roads. The vessel is to have her final acceptance speed tests and trials off the Atlantic coast within a few weeks and later she may go south to join the Atlantic fleet in maneuvers off Guantanamo Bay, Cuba.

The Michigan is the largest battleship now in commission in the United States navy. She is of 18,000 tonnage and carries eight 12-inch rifles mounted in four turrets arranged along the center line of the ship. One forward and one aft turret are so elevated that they can shoot over the other turrets, giving the vessel a fire of four 12-inch rifles dead ahead and eight of the guns can be fired on the broadside. Besides these guns the vessel carries 22 3-inch semi-automatic guns for use in warding off attacks by torpedo boats.

Scout Cruisers at Norfolk.

The United States scout cruisers Salem and Birmingham, which have been anchored in Hampton Roads several weeks, have gone to Norfolk to have their wireless telegraph masts lengthened preparatory to beginning the long distance tests at sea. The vessels are equipped with the new Fessenden apparatus and are to make tests at distances of 1,000 miles, 2,000 and 3,000 miles. The boats will leave the navy yard within ten days and will be at sea several months while the tests are being made. They may almost clear the globe before returning to the Roads.

Virginia Having Tests.

In order to give her engines and new propellers a thorough test, the Newport News' built battleship Virginia has gone on a trip outside of the Virginia Capes. The vessel will remain at sea several days and when the tests are completed she will return to the Roads to load bunker coal and provisions before steaming to the Tropics to join the Atlantic fleet in the annual winter target practice and maneuvers.

HIGH SCHOOL QUINTET
DEFEATS SMITHFIELD

Rough Game Played on Open Field
Results in Score of
12 to 6.

Accompanied by a number of the young lady students, the basketball team of the local high school journeyed over to Smithfield yesterday and trounced the quintet of the Smithfield High school by a score of 12 to 6. The game was played on an open field and roughness was its chief feature.

Jack Fitzgerald starred for the locals, playing an aggressive game throughout. Duvall Hudson also played well. Martin was the star for Smithfield.

The young lady students of the local school rooted strenuously for their favorites, while a big crowd of Smithfield enthusiasts were out for the game.

The lineup:

"Pipe" Caused the Wreck.
(By Associated Press.)
RALEIGH, N. C., Jan. 19.—The North Carolina corporation commission today rendered its decision as to the cause of the wreck of a Southern Railway passenger train near Greensboro, on December 15, in which there was great loss of life and injury to passengers and which matter the commission had under consideration. The commission attributes the cause to a "pipe" in rail, sustaining the contention of the railway officials.

GIRLS TO ORGANIZE
BASKETBALL TEAMS

Young Lady Students of High School Will Have Tournament This Season.

Basketball teams are being organized among the young lady students of the High school and if the present plans are carried out the teams will play a regular tournament this season. The quintets will begin practice in the Armory hall within a short time and the regular scheduled games probably will start early in October.

The High school girls first took up the playing of basketball two years ago and with the training that some of them have received in the past some fast teams should be organized. It is probable that a five will be picked from the teams to meet the girls' team of the Hampton High school later in the season.

ARRESTED FOR NON-SUPPORT.

Mrs. Henry Brown Swears Out Warrant Against Her Husband.

Henry Brown, a young man who lives at 313 Thirty-fourth street, was arrested last night by Sergeant Webb on the charge of the non-support of his wife and infant daughter. The arrest was made on a warrant which Mrs. Brown swore out before Judge Baham, in the Corporation Court, yesterday afternoon.

Mrs. Brown claims that her husband has failed to provide for her and infant daughter and that they are now in destitute circumstances. Mrs. Jane Carl, mother of the wife, is the chief witness in the case.

According to her husband arrested several times before on various charges, including trespass and cruelty.

PILES BRING DESPAIR

Take Courage! Internal Treatment Will Cure.

Piles make life unhappy and ruin the best disposition. Most sufferers have been bitterly disappointed by many failures to find a cure. A medicine in tablet form, taken internally, that avoids the unpleasant features of ointments, suppositories and operations, and cures thoroughly by removing the inside cause, is surely worth trying, especially as A. E. G. Klor, Newport News, Va., guarantees it.
